

Christopher M. Scherer

Attorney / Intellectual Property Practice Group Co-Chair

cms@dewittllp.com

262-754-2862

Metro Milwaukee

Chris is the Co-Chair of DeWitt's robust Intellectual Property (IP) Group. His domestic and international practice involves all facets of IP law, especially patent and trademark prosecution. He also serves as In-House Corporate Counsel on a contract basis for clients, where he manages IP portfolios, outside counsel and any litigation matters which may arise. Additionally, in his capacity as In-House Counsel, he works to implement legal policies and guidelines across multiple departments, negotiates agreements with licensors, licensees and suppliers, oversees document retention and assists with due diligence in negotiating the sale of companies.

He has prepared and prosecuted hundreds of domestic and international patent applications, particularly for electrical and electronic circuits and systems, computer software, artificial intelligence (AI), machine learning, medical devices, medical patient monitoring and treatment technology, device fabrication, optical devices and systems, security notes and mechanical devices.

Chris manages several domestic and international trademark portfolios and administers domestic trademark portfolios for foreign clients as well. His experience with global design patent prosecution includes Hague Convention filings and managing a portfolio for a major, international fashion industry company.

As an adjunct professor at Marquette University, Chris proposed and created an IP Procurement and Management course especially tailored for graduate students in the Engineering Management Program. Chris taught the course and arranged a number of guest speakers to present on various topics of IP law in order to instruct the students on IP Law and the nuances of interacting with IP counsel.

He successfully negotiated a settlement in a trademark opposition matter between the defendant

client, a regional winery, and the largest privately held winery in the world. The settlement was fashioned such that the client reserved trademark rights to enforce on a third winery that was infringing the client's trademarks.

Clients

His clients include manufacturers, universities, small and large corporations, privately held businesses, foreign law firms and corporations.
